

Logo directions for renewal and becoming

EMOTIONAL LIFE SUPPORT / EARLY CONCEPT EXPLORATION

01

The Unfolding

Emerging from emotional contraction.

A compact form gradually opens into broader shapes. Gentle, human and hopeful without becoming a literal flower.

02

The Threshold

Moving into another chapter.

Two forms create an opening between them. Calm and safe, while leaving the person free to choose what lies beyond.

03

A New Shape

Life becomes something new.

Separate pieces settle into a new configuration. It suggests rebuilding identity without implying that someone is broken.

04

The Emerging Line

Confusion gradually becomes clarity.

A compressed path becomes steadier and more open. Personal and expressive, with movement toward greater possibility.

05

Growth Rings

Experience becomes part of you.

Incomplete rings expand over time and open outward. Grounded, mature and resilient while remaining fully abstract.

06

The Turning Page

Beginning a new chapter.

A page-like form opens into fresh space. Elegant and editorial, with a natural connection to the existing serif identity.

07

Light Through a Crack

Hope appears gradually.

A narrow opening widens as it rises. Strong and restrained, expressing possibility without pretending change happens all at once.

08

Abstract Metamorphosis

The same person, transformed.

One geometry moves from enclosed to open. Sophisticated and flexible enough to become a wider visual identity system.
